# 2 Type of change

- Modified label
- Improved identification product configuration code on the label

### 3 Detailed description of change

All product types listed in section 1 receive a new label layout.

To better visualize the changes, we have used colors and numbers to cluster information into the following sections (The colors and white numbers are not part of the new label layout):

<b>Product identification section:</b> To improve readability, we clustered all the information concerning product identification in this group. To increase clarity, we introduce our product configuration code into this area.					
Product conformity section: Identical information was slightly rearranged.					
Product logistics section: Label names changed. Information was slightly rearranged.					
Product approval section: Identical information was slightly rearranged.					
Interruption ratings section: Identical information was slightly rearranged.					
Origin information section: Label for Factory Code was added. Information was slightly rearranged.
